### EXAMINER'S AMENDMENT AND REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification, page 1, between the title and "Technical Field", the following paragraph was inserted:

-- This application is a 371 of PCT/JP04/14229, filed September 29, 2004. --.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The reference cited on the PTO-892 discloses a multi-layered information recording medium with power control.

The following is an examiner's statement of reasons for allowance: the prior art of record considered as a whole fails to teach or suggest an information recording medium, or an information recording apparatus or method for recording information onto the information recording medium, the information recording medium comprises: recording layers in an order of a first recording layer and a second recording layer from an irradiation side of the laser light; and **a management information area in which a ratio information which indicates a ratio between (ii-1) a first recording power of the laser light irradiated in the second recording layer, which is transmitted through an unrecorded area of the first recording layer, and (ii-2) a second recording power of the laser light irradiated in the second recording layer, which is transmitted through a recorded area of the first recording layer, is recorded.** (bold language emphasized)

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
